## Frequently Asked Questions

What fees are charged to the Home Owners Association?

- There are no installation or on going fees charged to the Home Owners Association. All installation charges are paid by Beach Internet.

Does your equipment require power?

- Yes. Beach Internet will install one or two small units to distribute the broadband service. This can usually be drawn from a common panel. The power needs are so minimal they would not require a dedicated service.

Will you have to bury cable?

- If your facility does not have a central telephone room, yes we will have to bury cable. If cable burial is necessary, a site survey will be performed with on-site personnel. All landscaping will be returned to pre-installation form. All cables will be direct-burial or placed in conduit.

Will your service affect cable TV?

- No. Our services use existing telephone lines to bring High Speed Internet into each condo unit.

Will we have to enter a contract?

- No. We DO NOT require a contract from the Home Owners Association or the Home Owners.

Will every homeowner or tenant have to subscribe to the service?

- No. Our service is offered to homeowners on a voluntary basis. Each homeowner can decide if they would like to subscribe to our service. The homeowners who do not will not be charged.

What if we want Internet for every unit or condo?

- Beach Internet can provide Internet for every unit in your complex. This would require a site survey to determine installation options and lead times. We will be glad to discuss options with the HOA or Property Management about Internet in every unit. Please call our office for more details at 843-712-2537.

Why is your service better than property wide WiFi?

- With property wide WiFi, all tenants, renters and homeowners share one small connection and all fight for connectivity simultaneously. Besides security, all users are affected by usage of all other users. Each user slows down every other user. Wireless, through its technological nature, can be intercepted quite easily.

## Testimonials

Awesome! Thank you for your excellent customer service. I am in the marketing industry and I deal with people everyday, all day, and it really does make a difference.

Thanks again.

Christina E.

Hi Carolyn, this is Dana from Arcadian Dunes. I thought I would copy and paste a text that I got from a customer. I'm sure customers are easy to jump and tell you what you are doing bad, but you may not hear what you are doing good. Check this out:

"He has been here, fixed it and gone. That guy gets an A+ in Service."

---

We appreciate the great service! Ida & Mark"

---

I am so looking forward to this service that has been bragged about! I have a lot of owners at Summertree waiting to see how it goes! Thanks so much!" Cathie
